***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 19, 2006 has been entered.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 14 and 15 are renumbered so that they will follow claim 75, from which they depend. All of the claims were renumbered at allowance, and claim 75 was ultimately renumbered as claim 33, so claims 14 and 15 are renumbered as claims 34 and 35, and should depend from claim 75, now renumbered as claim 33.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the combination of two thermostable polymerases, one with

exonuclease activity and the other without exonuclease activity, and methods of using this formulation. The only significant prior art is that of Barnes, but the decision of the Board of Patent Appeals and Interferences based upon the request for adverse Judgment by Barnes demonstrates that the current application has priority of invention and that Barnes is not prior art. Therefore, the claims are novel and unobvious over the prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
